Rishit Kapoor

AI & Data Science Researcher · B.Tech IT at Manipal University Jaipur

ACL 2025 Author · Springer SSIC 2025

rishitkpr@gmail.com +91 7703955505 LinkedIn GitHub

Career Objective

Third-year B.Tech IT student specializing in AI/ML research, full-stack development, and data science. Published research at ACL 2025 and Springer SSIC 2025. Seeking to leverage machine learning, NLP, and software engineering expertise in high-impact, research-driven or product-focused roles.

Education

Degree	Institution	Year	CGPA / %
B.Tech (IT)	Manipal University Jaipur	2023–2027	6.47
Class XII (CBSE)	Green View Public School, New Delhi	2023	74.8
Class X	Prudence School, New Delhi	2021	76.84

Technical Skills

- **Languages:** Python, C, C++, Java, JavaScript
- **Frameworks:** ReactJS, Node.js, Flask, Express.js
- **Data & AI:** Pandas, NumPy, Scikit-learn, LangChain, RAG, OpenAI API
- **Databases:** MySQL, Oracle SQL, MongoDB
- **Security:** Kali Linux, Nmap, Burp Suite
- **Tools:** Docker, Git, GitHub, Vercel, Linux

Key Projects

Multi-Agent Collaboration System | *Group Project* *Oct 2024*
Tech Stack: LangChain · GPT-4 · Python

- Engineered a multi-agent pipeline with specialized Researcher, Coder, and Chart Generator agents, reducing task completion time through parallel execution.
- Built a supervisor agent to dynamically manage task routing and conversation flow, enabling seamless autonomous execution.
- Integrated live web-search and code execution tools for real-time information retrieval and automated output generation.

VizGraph Data Visualization Platform | *Internship Project* *2025*
Tech Stack: Python · Chart.js · AI APIs

- Built an analytics platform transforming structured datasets into interactive BI dashboards.
- Enabled AI-driven trend analysis and KPI monitoring for non-technical stakeholders.

Blogify Full-Stack CMS | *Internship Project* *2025*
Tech Stack: ReactJS · Node.js · MySQL

- Developed a full-stack CMS with JWT-based authentication and role-based access control.
- Designed scalable backend architecture aligned with enterprise practices.

Dust-Rose 2077 UI/UX System | *Designathon* *2025*

- Designed a high-intensity UI/UX system for autonomous control environments.
- Applied user-centric design principles for usability under extreme conditions.

Professional Experience

Web Developer Intern | *Zidio Development* *Jun 2025 Sept 2025*

- Developed and deployed responsive web applications with optimized frontend performance.
- Integrated RESTful APIs and collaborated in Agile sprint cycles.

Research Assistant | *Manipal University Jaipur* *Sept 2024 Present*

- Conducted vulnerability analysis and AI-based threat detection research.
- Co-authored peer-reviewed research papers in NLP and AI.

Frontend Developer LearnIT Club | *MUJ* *Jan 2025 Present*

- Built frontend features and organized nationwide coding challenges and workshops.
- Serving as Technical Secretary & Placement Head since May 2025.

Research Publications

Simulating Emotional Intelligence in LLMs
ACL 2025 Workshop, Vienna

- Developed a framework using behavioural conditioning and RAG pipelines to improve contextual AI responses.

Device-Specific User Behaviour Analysis
Springer SSIC 2025

- Analysed 819M+ events across 13M+ devices using statistical techniques.

Certifications

- AWS Cloud with AI LinuxWorld
- Google Foundations of Cybersecurity Google
- JavaScript & ReactJS Bootcamp Devtown
- Backend Web Development Bootcamp Devtown
- Oracle Database Programming with SQL

Achievements & Activities

- Technical Secretary & Placement Head - LearnIT Club
- Organized Code-Ye-Manipal workshops and hackathons
- Participated in national-level hackathons and coding competitions
