Professional Summary

Fourth-year B.Tech Information Technology student at Manipal University Jaipur with hands-on experience in research, full-stack development, and cybersecurity. Published at ACL 2025 and Springer SSIC 2025, with experience building multi-agent AI systems, constraint-based applications, and scalable software products.

Education

Manipal University Jaipur **2023 – 2027**
B.Tech in Information Technology *Jaipur, India*

Technical Skills

Languages: Python, C, C++, HTML, CSS, JavaScript, SQL

Frameworks & Databases: ReactJS, Node.js, Express.js, Flask, MySQL, Oracle SQL (beginner), MongoDB

Data & AI: Pandas, NumPy, Scikit-learn, LangChain, RAG Pipelines, OpenAI API

Security Tools: kali Linux, Wireshark, Nmap(beginner)

Consepts and DevOps Tools: Git, GitHub, Vercel, AWS (beginner), DSA, Secure Software Development Life Cycle, Debugging

Work Experience

Student Research Assistant **Sept 2024 – Present**
Manipal University Jaipur *Jaipur, India*

- Conducted vulnerability analysis and threat detection research, contributing to two peer-reviewed publications.
- Collaborated with faculty on NLP-focused AI research, resulting in an ACL 2025 Workshop paper.

Web Developer Intern **Jun 2025 – Sept 2025**
Zidio Development *Remote*

- Developed and deployed responsive web applications, collaborating with UI/UX teams to implement intuitive interfaces.
- Integrated RESTful APIs, optimised frontend performance, and participated in code reviews across sprint cycles.

Technical Secretary & Placement Head **Jan 2025 – May 2026**
LearnIT Club, Manipal University Jaipur *Jaipur, India*

- Serving as Technical Secretary (Executive post) and Placement Head since May 2025, coordinating events for 500+ participants.
- Developed frontend features in ReactJS/HTML/CSS and led the organization of the 21-Day Coding Challenge and workshops.

Key Projects

VizGraph | **GitHub** **2025 – 2026**
Tech Stack: ReactJS, Node.js, Express.js, MongoDB, Chart.js, Three.js, Tailwind CSS, OpenAI API

- Engineered a full-stack data visualization platform supporting CSV ingestion, interactive 2D/3D charts, data analysis, and exportable insights.
- Implemented JWT/Google OAuth authentication, role-based access control, admin dashboards, MongoDB-backed data management, and OpenAI-powered dataset summaries.

Blogify | **GitHub** **2025 – 2026**
Tech Stack: ReactJS, Redux Toolkit, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Cloudinary

- Developed a full-stack blogging platform with rich-text publishing, image uploads, comments, likes, profiles, full-text search, and tag/category filtering.
- Implemented JWT access/refresh-token authentication, admin moderation, rate limiting, input validation, XSS protection, and secure API middleware.

Smart Timetable System | **GitHub** | **Demo** **Sept 2025**
Tech Stack: ReactJS, Node.js, Python, Google OR-Tools (CP-SAT), Express.js

- Built an automated academic timetable generator using Google OR-Tools CP-SAT to produce conflict-free schedules under course, faculty, room, and time-slot constraints.
- Developed a full-stack interactive interface for configuring scheduling inputs and generating optimized academic schedules.

Research Publications

Simulating Emotional Intelligence in LLMs through Behavioural Conditioning and Analogical Retrieval
ACL 2025 Workshop (Analogy-ANGLE II), Vienna, Austria **2025**

Analysing Device-Specific User Behaviour in E-commerce: A Comparative Study
Springer Lecture Notes in Networks and Systems (SSIC 2025) **Accepted**

Certifications

Cloud AWS Cloud with AI (LinuxWorld)

Security Google Foundations of Cybersecurity -Certificate | Tools of the Trade: Linux and SQL Certificate

Development: JavaScript & ReactJS Bootcamp (Devtown) | Backend Web Development Bootcamp (Devtown)

Database & Hackathons: Oracle Database Programming with SQL | Hacks 8.0 (MUJ ACM Student Chapter)
